

Facundo Valencia

Senior Frontend & Mobile Engineer

Salta, Argentina | valenciafacundo@gmail.com | +54 387 503 5411

Portfolio: <https://valenciafacundo.github.io> | GitHub: github.com/valenciafacundo | LinkedIn: linkedin.com/in/facundo-valencia-393a7b96

PROFESSIONAL SUMMARY

Senior Frontend & Mobile Engineer with 5+ years shipping production web and mobile applications in digital banking, fintech, and logistics. Specialized in React Native, React, TypeScript, and Expo, with depth in mobile and frontend architecture, state management, REST/BFF integration, Design Systems, and release and distribution. Comfortable both delivering inside strict enterprise architectures (banking) and helping define a team's technical conventions and standards (logistics). Uses AI-assisted and agentic development workflows (Claude Code, GitHub Copilot) as a differentiator for codebase analysis, refactoring, test generation, and documentation.

TECHNICAL SKILLS

- **Mobile:** React Native (CLI and Expo), Expo, Expo Router, React Navigation, EAS Build/Submit, OTA updates, native modules, push notifications, deep linking, maps and geolocation, camera/QR scanning
- **Frontend:** React, TypeScript, JavaScript (ES6+), Next.js (App Router, RSC), Styled Components, Tailwind CSS, shadcn/ui, Radix UI
- **Architecture, State & Data:** frontend/mobile architecture, Redux Toolkit, RTK Query, Zustand, React Hook Form, Yup
- **APIs & Integration:** REST, BFF, TypeScript request/response contracts, access/refresh tokens, error handling
- **Design Systems:** Figma, design tokens, theming, shared component libraries
- **Delivery & DevEx:** CI/CD (Jenkins, GitLab CI, EAS), feature flags, Remote Config, ESLint, Prettier, TypeScript strict
- **AI-Assisted / Agentic:** Claude Code, GitHub Copilot, ChatGPT, v0
- **Firebase:** Analytics, Crashlytics, Cloud Messaging, Remote Config
- **Backend (complementary):** Node.js, NestJS, SQL
- **Native (complementary):** Kotlin/Java (Android native modules)
- **Testing:** Jest
- **Methodologies & Tools:** Agile, Scrum, Git, GitHub, GitLab, Jira

PROFESSIONAL EXPERIENCE

Baufest — Frontend & Mobile Developer

Dec 2022 – Present | Remote | Consulting firm; continuous employment across client assignments

Banco Galicia — React & TypeScript Developer (Banking / Financial Products) · Jan 2024 – Present

- Deliver card and financial-product features for a major digital bank, working entirely within its mandatory corporate architecture, libraries, and archetypes.
- Build card product carousels, visual product representation, and product-to-business-logic mapping.
- Integrate REST APIs and BFF through TypeScript contracts, with mocked scenarios covering error and edge cases.
- Participate in releases and deployments across dev/QA/prod with Jenkins, using feature keys for controlled delivery and backward compatibility.
- Extend Node.js/NestJS (BFF) and .NET services when a feature requires it (complementary backend).

PersonalPay — React Native & React Developer (Fintech / Digital Wallet) · Dec 2022 – 2023

- Built digital-wallet features in React Native and React within a federated micro-frontend architecture, contributing to a progressive migration.
- Shipped changes safely using feature flags, backward compatibility, and event versioning.

- Applied strict lint/format rules, TypeScript, and quality conventions; handled iOS/Android permissions and PDF receipt generation.

Starken — React Native Developer (Logistics App Ecosystem)

2024 – Present | Remote

- Deliver mobile features across 3–4 production apps in a logistics ecosystem serving end customers, employees, operators, supervisors, and administrative users.
- Contribute to architecture proposals and help define and document the team's technical conventions and standards.
- Integrate services with RTK Query and Redux Toolkit; build a shared global UI kit from Figma (Design System).
- Deliver native integrations: Bluetooth printing via a native Android module in Kotlin/Java, camera-based QR/barcode scanning, maps, and geolocation.
- Run mobile delivery end to end: EAS Build, APK generation, Google Play releases, OTA updates, and multi-environment configuration.
- Write documentation aimed at both people and AI agents to improve developer experience.

FLOBI — React Native & React Developer (Sports Social App)

2022 – 2023

- Migrated navigation from React Navigation v4 to v6 and upgraded Expo v38 to v44.
- Built custom real-time chat and deep linking.
- Integrated Firebase, AWS S3, and MongoDB; API calls and global state.
- Delivered responsive, scalable components for Android and iOS.

Earlier Experience

- Programming Instructor (Java / MySQL) — 1000 Programadores Salteños, Universidad Nacional de Salta — 2022
- React Native Developer — FoodApp (freelance) — 2021–2022
- React Native Developer — BTES, Seed To Grow Software — 2021
- React Developer (Electron) — Lubricentro sales-management app — 2021
- React Native Developer (Expo) — GRe Mobile recycling app — 2021

CERTIFICATIONS

- GitHub Copilot Certification — GitHub (Microsoft) — Issued May 2026, Expires May 2028 — Credential ID 7E4367DFF904B293 — Certification number 275L4A-50A114

EDUCATION

- Técnico Superior Analista de Sistemas (Higher Technical Degree, Systems Analysis / Programming) — Instituto Superior Del Milagro — 2018–2020

LANGUAGES

- **Spanish:** Native
- English — Technical working proficiency; frequent use in software development, documentation and written communication.

SELECTED PROJECT

- Florería La Rosa (<https://floreria-la-rosa.netlify.app>) — Commercial website built with Next.js (App Router, React Server Components), Tailwind CSS, shadcn/ui, and Radix. Responsive, SEO/SSG, OpenGraph. Contributed to the business's online presence and to international inquiries and sales. Stack: Next.js, React, TypeScript, Tailwind, shadcn/ui, Radix.
